for more information and to purchase please contact your Audi dealer or visit parts.audiusa.com.

Service & Warranty Information

Audi dealerships do not provide service or repairs for the Audi Electric Mountain Bike.

For these needs, customers should contact the Audi Customer Experience Center. The center collaborates with the customer and Fantic support to locate the nearest qualified bike store for services, repairs, or parts and answers any product questions.

Contact the Audi Customer Experience Center 1-800-822-2834 for assistance.

Fantic Limited Warranty Terms:

The Fantic Limited Warranty begins on the date of purchase and lasts 24 months. Products MUST be registered with Fantic USA according to the instructions available in the Electric Mountain Bike owner's and user's manual provided.

Safety Information:

Customers should comply with local and state regulations on Electric Mountain Bike usage; refer to the user manual's roadworthiness table for terrain guidance.

Customers should review the User's Manual and Safety Information documents for proper use and charging, prior to riding.

The Audi Electric Mountain Bike has a user weight restriction of 265lbs.

Before you ride the Electric Mountain Bike on public roads, you should check the regulations that apply in your area and ensure that your Electric Mountain Bike and safety equipment meet the necessary requirements.

Please refer to the users' manual for correct transportation procedures.

Audi Electric Mountain Bike Powered by

FANTIC

Audi
Genuine Accessories

Your bike for practically everything.

The range of uses for the Audi electric mountain bike powered by Fantic is huge—from touring to enduro biking, it is up to the challenge thanks to its racing inspired design and robust construction.

The Drive

The Audi electric mountain bike powered by Fantic has top suspension components with upgrades over the Fantic production bike.

- > Öhlins RXF 38 m.2; 180 mm; with a two chamber working system in the front suspension fork
- > Öhlins TTX2m.2 T205 X 65 coil
- > Dropper seat post with remote control on the handlebar

The Energy

The performance from the motor and battery of the Audi electric mountain bike powered by Fantic allows powerful, fast yet gentle progress in almost any terrain and surface.

- > Brose S MAG 36 Volt, 250 Watt, 90 Nm
- > Fantic Lithium 36 Volt, 720 Wh battery

The Ride

Riders can tailor their experience with four assistance modes: Eco, Tour, Sport, and Boost, all accessible via the handlebar control unit.

The Braking Power

The racing grade technology of the brakes, will support you to stop quickly at your desired destination.

- > Braking F.I.R.S.T. brake disc ø220 mm front
- > Braking F.I.R.S.T. brake disc ø203 mm rear

The Body

The geometry of the enduro frame allows a relaxed and comfortable riding position to have the necessary concentration you need to overcome a wide range of obstacles.

- > Durable / lightweight construction
